

# MD pocket<sup>®</sup>

March 2019

Medical Reference Guides | Clipboards | Pocket Equipment | Books | Calipers

## About MDpocket:

MedInfo, Inc. and its associated trade names (MDpocket, WhiteCoat Clipboards, Clipboards.com) is a publisher of professional and scholarly medical books and reference guides. Our publications include all medical specialties and subspecialties and aim to provide all healthcare professionals with the most up-to-date medical references. Our product line is designed to give our customers compact and easy to use medical products and references.

## Product Key:

Batteries Included

Made in the USA

Available Product Colors

Customizable (see page 63)

Available Product Displays (see page 2)

Engravable

# PACKAGING AND DISPLAYS

MDpocket offers a variety of ways to display its products. Freestanding and table top displays are available in several sizes and configurations. Contact your sales representative with any packaging or display questions, requests, or to determine how MDpocket products will look in your store!

MDpocket has upgraded its retail packaging to offer a superior retail presence for your store. Many items now feature our unique retail boxes to help them stand out on your shelves and offer a complete branded experience for your customers.

Call us for  
**Free Samples**  
of our  
packaged  
products!

**Contact us today for sample requests, display inquiries,  
or any questions at 888-701-3874 x354**

# MDpocket Medical Student Edition - 2019

The Student Edition contains the most used information by today's medical students. Pocket-sized, comprehensive, and specifically designed to meet the demands of all students throughout their medical school years.

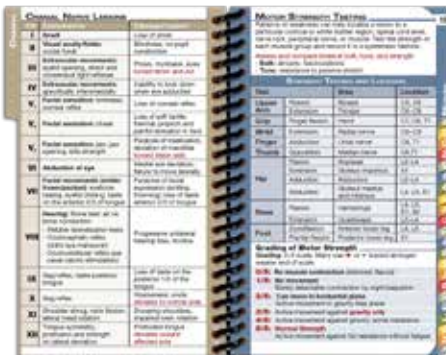

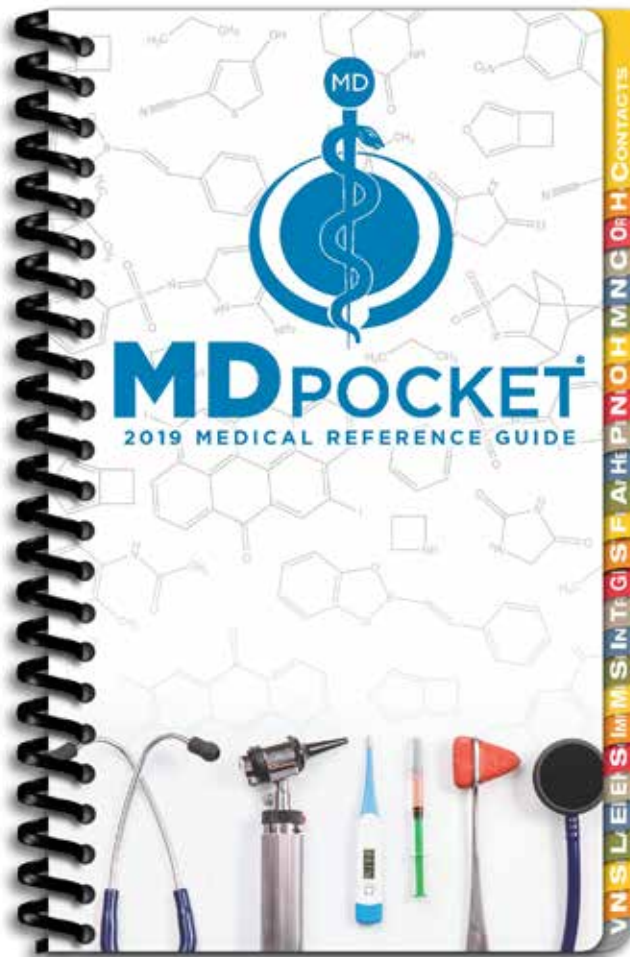

### Contents:

- Complete history and physical exam guidance with descriptors to help you write a great H&P exam
- Mini mental status exam
- Dermatome map
- Glasgow Coma Scale
- How to write admission orders
- Examples of preoperative, operative, and postoperative notes
- Examples of general SOAP, peds, neurological, and procedure notes
- Chapman reflexes
- Commonly used replacement fluids
- Commonly used equations
- Rulers in centimeters and inches
- Eye chart
- Newborn reflexes and weights
- Insulin actions
- Acute renal failure
- Antibiogram
- USPSTF screening guidelines
- Autonomic reflexes
- ...and much more!

Spiral ISBN-13: 978-1-943991-90-7

Retail Spiral Price: \$23.95

Wholesale Spiral Price: \$15.57

### ADMISSION ORDERS (ADC VAANDISML)

Written in the physician orders for admissions, transfers and postop

<b>A:</b> Admit/Transfer	<b>N:</b> Nursing
<b>D:</b> Dx	<b>D:</b> Diet
<b>C:</b> Condition	<b>I:</b> IV
<b>V:</b> Vital	<b>S:</b> Special instructions
<b>A:</b> Activity	<b>M:</b> Medications
<b>A:</b> Allergies	<b>L:</b> Labs and x-rays

**Example of Postop or Admission Orders**  
 Admit to Ward \_\_\_\_\_ Dr. \_\_\_\_\_ Page # \_\_\_\_\_  
**Dx:** colon cancer s/p sigmoid colectomy  
**Condition:** stable  
**V/S:** q2hrs for 24hrs, then q4hrs; call HO if T >38.5°C, P >100 or <60, SBP >160 or <110, RR >30, urine output <60 mL over 2 hours  
**Activity:** OOB in the AM with assistance, ambulate tid, neurological checks q2hrs with pupils  
**Allergies:** none  
**Nursing:** strict I/O, daily weight  
 • **DVT prophylaxis:** pneumatic compression stockings until ambulatory  
 • **Incentive spirometer:** 10 puffs q1hr while awake  
 • **Drains/tubes:** Foley to gravity, NGT to low constant suction, JP drain to bulb suction  
**Diet:** NPO  
**IV:** LR @ 125 mL/hr for first 24 hours; change to maintenance fluids of D5 1/2 NS or 1/2 NS + 20 mEq/L KCL @ 80 mL/hr  
**Special Instructions**  
**Medications:** "6 Ps": Postop meds, Pain, Pee (diuretics), Poop, Pus (antibiotics), Pillow (sleep, sedation)  
 • **Postop medication:** (must be individually reordered)  
 • **Pain regimen:** patient-controlled analgesia as needed  
 • **Diuretics:**  
 - Lasix: 40 mg IV qday  
 - Antibiotics: cefotetan 1g IV q8hrs if attending wishes to continue preoperative dosing, etc.  
 - GI: Zantac  
**Labs and Xrays:** CBC, CHEM-7, etc. in the AM  
 • **AM labs:** A/P and lateral, check HCT, CBC, CHEM-7  
 Your signature and title:

### PREOPERATIVE NOTE

Written in the progress notes before the operation

<b>TITLE NOTE:</b>	Preop Note	Date/Time:
<b>Preop Dx:</b>	Colon cancer	
<b>Procedure:</b>	Descending colon resection	
<b>Labs:</b>	CBC, CHEM-7, PT/PTT	
<b>CXR:</b>	Normal	
<b>EKG:</b>	NSR, WNL	
<b>Blood:</b>	T&C x 3 Units (or not needed, T&S)	
<b>Anesthesia:</b>	GETA	
<b>Consent:</b>	Signed and on front of chart	
<b>Orders:</b>	1. Void OCTOR 2. Cefoxitin 1g OCTOR 3. Hibiclens scrub this m 4. Bowel prep today 5. NPO after midnight	

### OPERATIVE NOTE (PPP-SAAFFE-DSCC)

Written in the progress notes of the chart and title note

<b>TITLE NOTE:</b>	Op Note	Date/Time:
<b>Preop Dx:</b>	Acute appendicitis	
<b>Postop Dx:</b>	Ruptured appendix	
<b>Procedure:</b>	Appendectomy	
<b>Surgeon:</b>	Burly	
<b>Assistants:</b>	Davis Love II, Hank Aaron, Jeff Moore MS III	
<b>Anesthesia:</b>	GET, local, MAC, epidural, spinal, LMA	
<b>Findings:</b>	Perforated Appendix	
<b>Fluids:</b>	I/O: 1200 mL LR/UOP 450 mL EBL: 150 mL	
<b>Drains:</b>	None	
<b>Specimens:</b>	Appendix to pathology, CSF to lab	
<b>Complications:</b>	None (ask before you write your own)	
<b>Condition:</b>	Stable, extubated, moved to PACU in stable condition	

**Abbreviations:**  
 N/A: Not applicable, WNL: Within normal limits, T&C: Type and Cross  
 T&S: Type and Screen, GETA: General endotracheal anesthesia, LMA: Laryngeal mask airway, MAC: Monitored anesthesia care, OCTOR: On-call to OR, UOP: Urine output, CSF: Cerebrospinal fluid, EBL: Estimated blood loss

# DOpocket Osteopathic Edition - 2019

The Osteopathic Edition is packed full of specific material for the osteopathic student. Pocket-sized, comprehensive, and specifically designed to meet the demands of all DO students during their training.

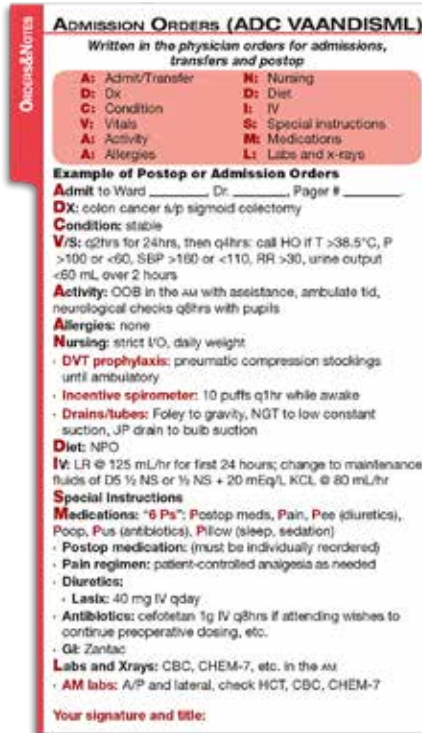

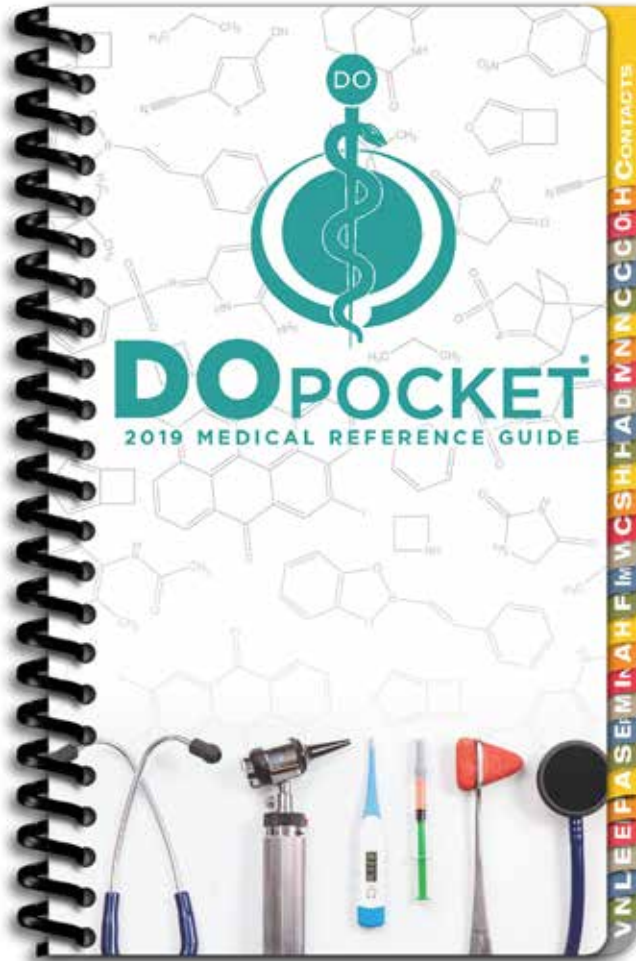

### Contents:

- Complete history and physical exam with descriptors to help you write a great osteopathy-specific H&P
- Mini mental status exam
- Dermatome map
- Glasgow Coma Scale
- How to write an admission order
- Sample preoperative, operative, and postoperative notes
- Sample SOAP, peds, neurological, and procedure notes
- Chapman reflexes
- Commonly used replacement fluids
- Hyponatremia algorithm for management
- Conversions of narcotics, temperatures, weights, and volumes
- APGAR scoring
- Lab values
- ACLS guidelines
- PALS guidelines
- USPTFS screening recommendations
- Newborn reflexes and weights
- Autonomic reflexes
- ...and much more!

Spiral ISBN-13: 978-1-943991-94-5

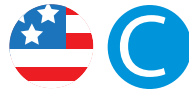

Retail Spiral Price: \$30.95

Wholesale Spiral Price: \$20.12

# NPpocket Nursing Edition - 2019

NPpocket contains pocket medical information used by today's nurses, nurse practitioners and other allied nursing fields.

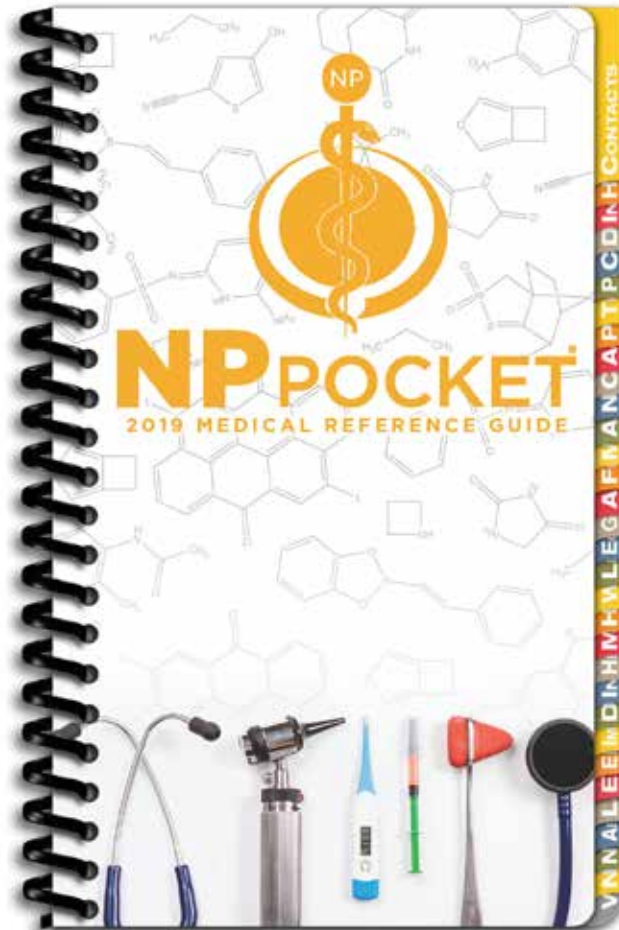

## Contents:

- History and physical exam section
- Injection sites for intramuscular, subcutaneous and intradermal
- Specialized and modified diet sections
- Cardiac auscultation points
- EKG interpretation with QRS diagram, rate, rhythm, blocks, arrhythmias
- Dermatomes
- Mini mental status exam
- Guidelines for potassium replacement
- Electrolyte replacement for calcium, phosphate, magnesium
- Replacement fluids chart with maintenance fluid calculations
- Acute renal failure algorithm
- Hyponatremia algorithm
- Nausea, vomiting, and diarrhea medications with side effects
- Pain medications with onset, peak, duration and dose
- Steroid medications and equivalents
- Diagnosis and treatment of heart failure
- Diabetes checklist for management
- Immunizations schedule
- Blood-Plasma-Serum lab values
- Drugs that cannot be crushed section
- Blank notes pages
- ...and much more!

Spiral ISBN-13: 978-1-943991-91-4

Retail Spiral Price: \$28.95

Wholesale Spiral Price: \$16.22

**H&P EXAM**

### Physical Exam Continued

- Breast/Axilla/Epitrochlear Nodes:** Symmetry, masses, tenderness, discharge, dimpling, skin changes, lymph node enlargement, tenderness
- Heart:** Rate, rhythm, murmurs, rubs, gallops, clicks
- Lungs/Anterior Thorax:** Chest symmetry, wheezes, rales, vocal fremitus, percussion, whispered pectoriloquy
- Abdomen:** Bowel sounds, rebound, guarding, masses, liver span, CVA tenderness, spleen size, shifting dullness, tympany/dullness on percussion
- Genitourinary:**
  - Male:** Hemias, scars, rashes, ulcers, nodules, discharge
  - Female:** Hemias, scars, discharge, ulcers, masses
- Rectal:** Sphincter tone, masses, prostate size/consistency, occult stool blood
- Musculoskeletal:** Weakness/atrophy, ROM, instability, gait, swelling, asymmetry, redness, tenderness
- Vascular:** Carotid, radial, femoral, popliteal, dorsalis pedis, posterior tibialis, varicose veins, carotid bruits
- Lymphatic:** Lymphadenitis, red streaks, edema with degree of pitting (0+ 4+ scale)
- Neurologic:** Cranial nerves, strength, sensations (pain and temp, position, vibration), reflexes (triceps, biceps, brachioradialis, knees, achilles, patellar), cerebellum, gait
- Psychological:** Mood, perceptions, insight, judgment, memory, attention, vocabulary, abstract thinking

**Labs/Tests/Studies**

- Chem, Heme, UA, EKG, CT/MRI, etc.

**Problem List**

Generate a list of all the H&P problems you found and incorporate them into your assessment and plan. Rank them in order of importance.

**Assessment**

- An integration of the above problems into the most likely diagnosis with a differential diagnosis (DDX). Always start with "A...y.o. male/female with cough, fever, chest pain and initiate c/c: CXR with likely CAP vs developing emphysema.

**Plan**

- Rank order list of the **Problem List**: Not a differential; pertinent information of all the positive data from the history and exam, and lab studies. #1 Pneumonia, #2 Hypoxatremia, etc. with plan for each problem.

**QUICK HISTORY & PHYSICAL EXAM ORDER**

<b>Chief Complaint (CC):</b>	<b>Allergies:</b>
<b>History of Present Illness (HPI) - OPQRST:</b>	<b>Review of Systems (ROS):</b>
<b>Past Medical Hx (PMHx):</b>	<b>Physical Exam (PE):</b>
<b>Past Surgical Hx (PSHx):</b>	<b>Labs/Tests:</b>
<b>Family Hx (FHx):</b>	<b>Problem List:</b>
<b>Social Hx (SHx):</b>	<b>Assessment:</b>
<b>Medications:</b>	<b>Plan:</b>

### INJECTION METHODS

**7**

**Deltoideus Site**

**Ventrogluteal Site**

**Dorsogluteal Site**

**Vastus Lateralis Site**

**Z-Track Method for Giving IM Injections**

1. Identify injection site.
2. Pull skin to one side.
3. Insert needle deep IM.
4. Inject medication.
5. Withdraw needle.
6. Release skin.

**VNNAL EEW DHHHMLWLEGAFFANCAPI PC DNH CONTACTS**

**Typhoid Infections**

**4 P's Rule for Typhoid:** Fever, Rash, Relative Bradycardia, Splenomegaly

**Leishmaniasis**

**Gonorrhea Test**

**Fluoridation and Tap Water**

**18**

**Chronic Illness**

Abbreviation	Definition	Common	Less Common
A	Asymptomatic	Asymptomatic	Asymptomatic
B	Bacteremia	Bacteremia	Bacteremia
C	Chronic	Chronic	Chronic
D	Diagnosis	Diagnosis	Diagnosis
E	Exacerbation	Exacerbation	Exacerbation
F	Fatigue	Fatigue	Fatigue
G	Genetic	Genetic	Genetic
H	Hypertension	Hypertension	Hypertension
I	Infection	Infection	Infection
J	Joint	Joint	Joint
K	Kidney	Kidney	Kidney
L	Liver	Liver	Liver
M	Mental	Mental	Mental
N	Nausea	Nausea	Nausea
O	Obesity	Obesity	Obesity
P	Pain	Pain	Pain
Q	Quality	Quality	Quality
R	Risk	Risk	Risk
S	Symptoms	Symptoms	Symptoms
T	Treatment	Treatment	Treatment
U	Uncommon	Uncommon	Uncommon
V	Vital	Vital	Vital
W	Weight	Weight	Weight
X	X-ray	X-ray	X-ray
Y	Yeast	Yeast	Yeast
Z	Zinc	Zinc	Zinc

**Minor Symptoms Terms**

**23**

# MDpocket Neurology Edition

The Neurology Edition is ideal for all neurology students and residents with its compact design and easy to use tabbed index.

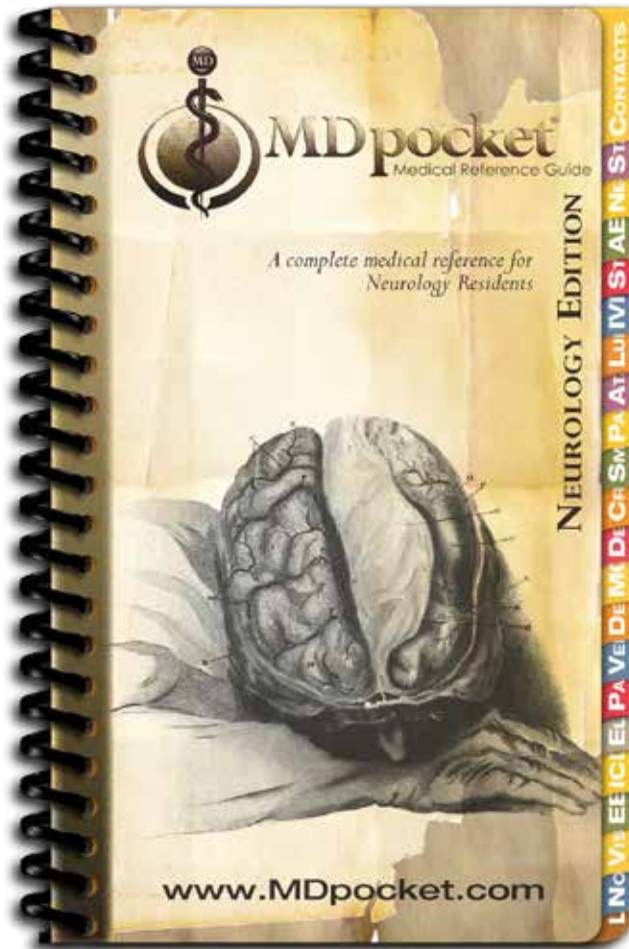

### Contents:

- Status Epilepticus management and treatment
- Neurology drugs with dose, levels, and contraindications
- Anti-Epileptic drugs with target levels, doses and side effects
- Stroke mimics and clinical features
- NIH Stroke Scale
- EMG conduction
- IVIG dosing and side effects
- MRI modalities
- Lumbar puncture procedure
- Tumors that spread and where
- Meningitis CSF testing
- Ataxia management and testing
- Parkinson's symptoms and treatment
- Radiculopathies and small fiber neuropathies
- Cranial nerve components and lesions
- Cranial nerve palsies
- Vertigo
- Pain management with dosing
- Visual field pathways with lesions
- Plexus diagrams (Lumbosacral and Brachial)
- ...and much more!

# MDpocket Physician Assistant Clinical/ Outpatient Edition - 2019

The Clinical/Outpatient Physician Assistant guide from MDpocket contains detailed pocket medical information needed by PAs working in a clinical or outpatient setting.

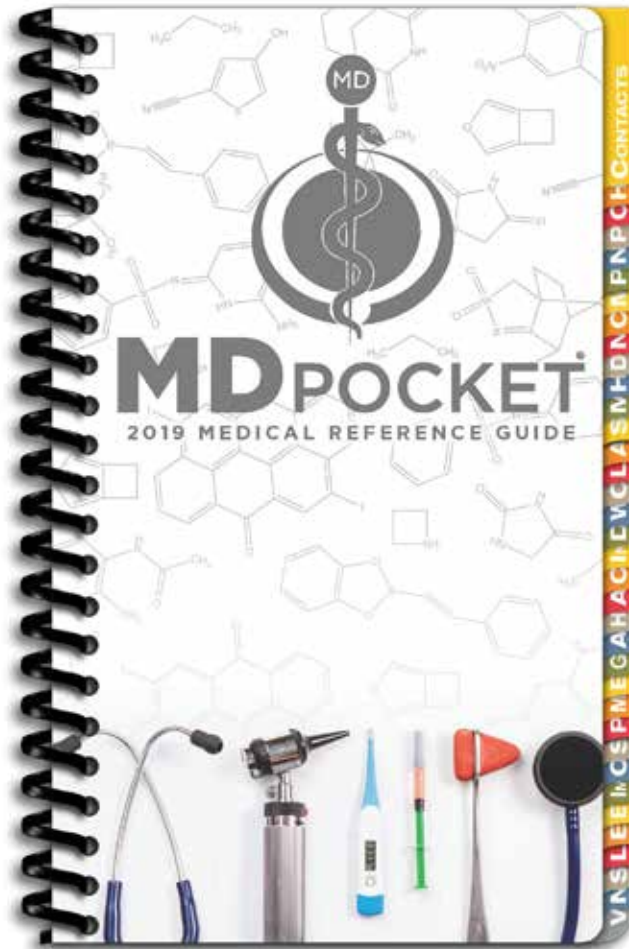

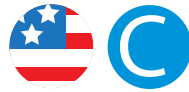

## Contents:

- Conversion for weight, height, temperature
- Contacts page to keep your numbers organized
- History and Physical Exam write-up sections with descriptors
- Cardiac murmurs
- SLUMS - mental status exam
- Autonomic activity (Autonomic, Parasympathetic, Sympathetic)
- Cranial nerves components and testing
- Muscle strength testing and grading
- Dermatome locations
- Clinic coding guide
- Acute Coronary Syndrome
- EKG lead placement
- EKG interpretation
- Coronary artery and valve diagrams
- CXR interpretation
- Statin and lipid guidelines (ATP IV)
- Coumadin management
- Diabetes screening and management
- Diabetic medications
- HIV basics
- ...and much more!

Spiral ISBN-13: 978-1-943991-93-8

Retail Spiral Price: \$30.95

Wholesale Spiral Price: \$20.12

**OBSTETRICS**

### OBSTETRIC DEFINITIONS

**Labor:**  
Regular painful uterine contractions resulting in cervical dilation and effacement.

**Cervical Insufficiency:**  
Cervical dilation in the absence of uterine contractions.

**Stages of Labor:**

**First Stage:** From time of onset of contractions until full cervical dilation (10 cm).

**Second Stage:** From complete cervical dilation until delivery of the fetus.

- **Prolongation**
- **Nulliparous:** 3 hours if regional anesthesia used or 2 hours without
- **Multiparous:** 2 hours if regional anesthesia used or 1 hour without

**Third Stage:** From delivery of fetus to delivery of the placenta and fetal membranes; considered prolonged after 30 minutes.

**Fetal Heart Rate Monitoring:**

- **Uterine contractions:** # of contractions (ctx) in a 10 minute period averaged over 30 minutes. Strength, duration, relaxation time are also important.
  - Normal:  $\leq 5$  ctx in 10 minutes
  - Tachysystole:  $> 5$  ctx per 10 minutes (look for associated fetal heart rate decels)
- **Baseline FHR:** 110-160 normal
- **Baseline FHR variability:**
  - Minimal: Amplitude  $\leq 5$  bpm
  - Moderate: Amplitude range 6-25 bpm
  - Marked: Amplitude  $> 25$  bpm
- **Accelerations:** Peak 15 bpm above baseline and lasts 15 seconds from onset to return to baseline.
  - $\geq 2$  minute acceleration is prolonged
  - $\geq 10$  minute acceleration is baseline change
- **Reactivity:** Increase of at least 15 bpm for at least 15 seconds twice in a 20 minute period.
- **Early Decelerations:** Symmetric gradual decrease and return of FHR associated with uterine contraction (caused by head compression-vagal response).
- **Variable Decelerations:** Abrupt decrease in FHR ( $< 30$  seconds from onset to nadir) and return to baseline - often associated with umbilical cord compression

### OBSTETRIC DEFINITIONS CONTINUED

- **Late Decelerations:** May be identical to early decels, but these are delayed, with nadir occurring after peak of contraction.
  - Associated with uteroplacental insufficiency.
- **Prolonged Deceleration:** Deceleration duration  $> 2$  minutes (and less than 10, which would be change in baseline).

### THREE-TIER FETAL HEART RATE INTERPRETATION SYSTEM

**Category I: Normal**

The fetal heart rate tracing shows all of the following:

- Baseline FHR 110-160 bpm, moderate FHR variability, accelerations may be present or absent, no late or variable decelerations, may have early decelerations.
- Strongly predictive of normal acid-base status at the time of observation. Routine care.

**Category II: Indeterminate**

The fetal heart rate tracing shows ANY of the following:

- Tachycardia, bradycardia without absent variability, minimal variability, absent variability without recurrent decelerations, marked variability, absence of accelerations after stimulation, recurrent variable decelerations with minimal or moderate variability, prolonged deceleration  $> 2$  minutes but less than 10 minutes, recurrent late decelerations with moderate variability, variable decelerations with other characteristics such as slow return to baseline, and "overshoot".
- Not predictive of abnormal fetal acid-base status, but requires continued surveillance and reevaluation.

**Category III: Abnormal**

The fetal heart rate tracing shows EITHER of the following:

- Sinusoidal pattern OR absent variability with recurrent late decelerations, recurrent variable decelerations, or bradycardia.
- Predictive of abnormal fetal-acid base status at the time of observation. Depending on the clinical situation, efforts to expeditiously resolve the underlying cause of the abnormal fetal heart rate pattern should be made.

### Papaverine Score (PAS)

Score	Interpretation
0-1	Normal
2-3	Mildly abnormal
4-5	Severely abnormal

### PEOS: Acute Asthma Management

**Assessment (10-15 minutes)**

- **History:** Onset of symptoms, duration, severity, previous attacks, triggers, response to previous treatment.
- **Physical Exam:** Tachypnea, hyperinflation, wheezing, decreased breath sounds, normal or hyper-resonant chest, normal or tachycardic heart rate, normal or tachypneic respiratory rate.
- **SpO2:**  $> 92\%$  on room air.
- **Peak Expiratory Flow Rate (PEFR):**  $> 200$  L/min.

**Diagnosis:** Acute asthma exacerbation.

**Management:**

- **Initial Treatment:**
  - 2-4 inhalations of SABA (2 puffs per inhalation)
  - 1-2 nebulized treatments of SABA
  - 1-2 nebulized treatments of corticosteroids
  - 1-2 nebulized treatments of anticholinergics
  - 1-2 nebulized treatments of magnesium sulfate
- **Reassessment:**
  - Repeat assessment in 15-30 minutes
  - If symptoms persist, repeat initial treatment
  - If symptoms improve, continue to monitor and provide supportive care

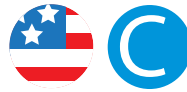

### Brachial Reflexes

Reflex	Normal Response	Abnormal Response
C3-4	Flexion of the neck	None
C5-6	Flexion of the elbow	None
C7-8	Flexion of the wrist	None
C9-T1	Flexion of the hand	None

### Clonus, Neck Contractions

**Clonus:** Rapid, rhythmic, alternating contractions of a muscle or muscles.

**Neck Contractions:** Rapid, rhythmic, alternating contractions of the neck muscles.

# MDpocket Physician Assistant ER/Inpatient Edition - 2019

The ER/Inpatient Physician Assistant guide from MDpocket contains detailed pocket medical information needed by PAs working in a hospital or emergency department.

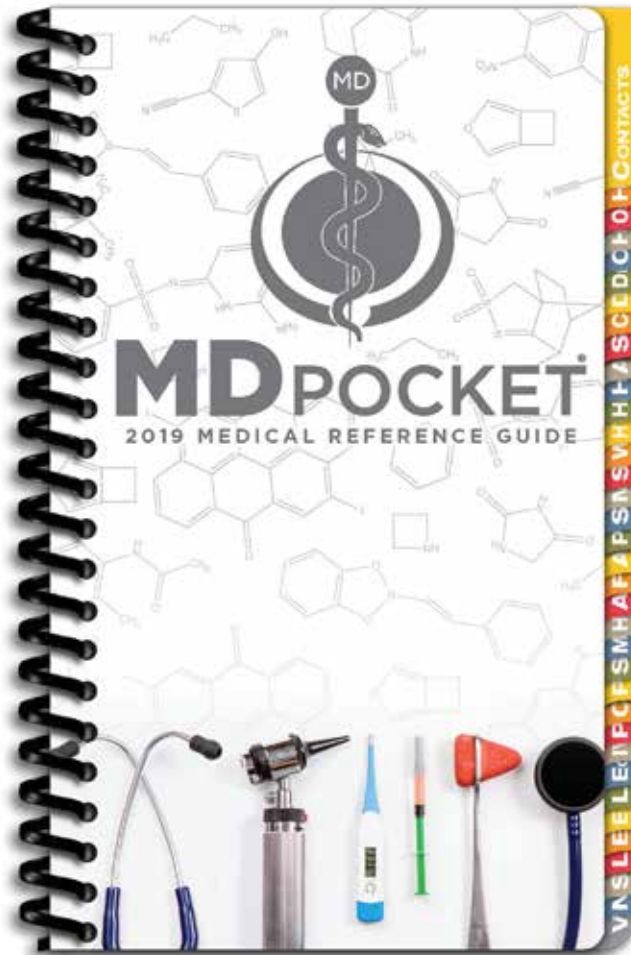

### Contents:

- Conversion for weight, height, temperature
- Contacts page to keep your numbers organized
- History and Physical Exam write-up sections with descriptors
- Rapid intubation medications
- Sepsis/SIRS Bundle with treatment algorithm
- Treating community acquired pneumonia with *Pseudomonas* risk factors
- HAP, VAP, HCAP treatment guidelines
- Heart failure treatment
- Stroke guidelines and management
- NIH Stroke Scale
- Drugs for hypertension emergencies
- Hypertension management (JNC 8 guidelines)
- Acid base analysis
- Lacerations guide and suture diagrams
- Chest X-ray anatomy and interpretations
- Writing notes-delivery, intrapartum, surgery, procedures, preop, op, postop ...and much more!

## 1 Medical Student Mini Edition

MDpocket mini provides a more compact version of our Medical Student Reference Guide for those who only want the essentials. This guide provides students with all the basics and a little extra at a great price. This reference is packed with the most daily used medical information used by today's students and includes quick and easy ways to take care of patients.

ISBN-13: 978-0-9889269-7-4

Retail Spiral Price: \$7.95

Wholesale Spiral Price: \$5.17

## 2 Extra Notes Page

Add extra notes pages to write all your important information on and take with you. All pages are prelined and tabbed to fit **any** of our medical reference guides.

Model 8756

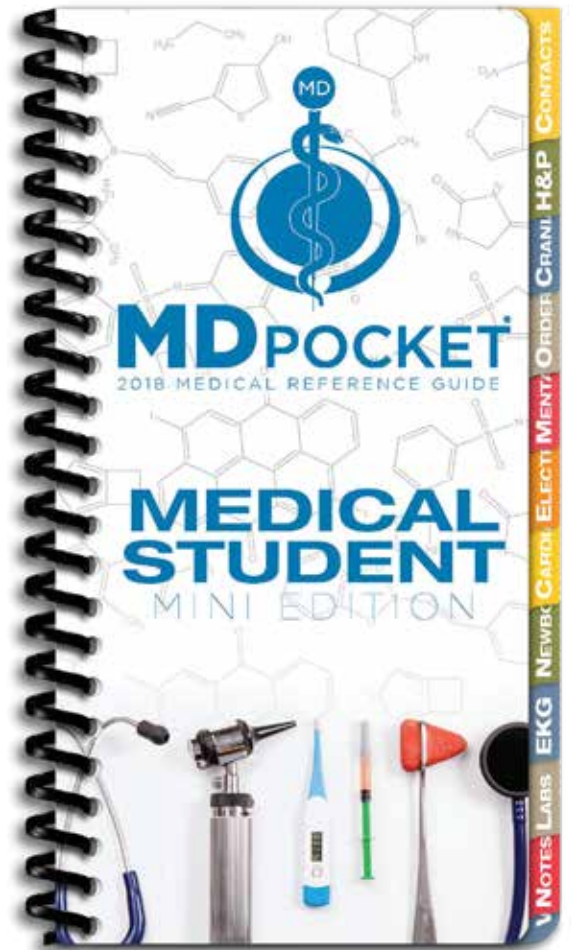

MSRP	10-49	50-99	100+
\$0.75	\$0.64	\$0.60	\$0.57

## 3 Pocket Page

Add a pocket page to any of our reference guides to store important small sheets, medical information or important phone numbers. Pocket pages can be added to **any** of our medical reference guides.

Model 8755

MSRP	10-49	50-99	100+
\$1.00	\$0.85	\$0.80	\$0.75

**ADD TO ANY BOOK!**

### 1 Pocket Penguin EKG Calipers

Compact durable pocket size EKG calipers with a distinctive look and feel. Get one of the best pocket calipers made. Small enough to fit in any pocket, these EKG calipers are easy-to-use, fully adjustable, and guaranteed to last with their powder coated, nickel plated light weight aluminum.

3.75" L / 0.4 oz.

 Red **6063-RED** Navy **6063-NAVY**  
 White **6063-WHI** Teal **6063-TEAL**

MSRP	10-49	50-99	100+
<b>\$4.95</b>	<b>\$4.20</b>	<b>\$3.95</b>	<b>\$3.70</b>

3

### 3 Nurse Pocket

Organize all of your pocket equipment in this simple nurse pocket. Carry your equipment or small paperwork, notes, or writing utensils in the 4 pockets. Clip a key to the chain and securely store coins or other important small items in the Velcro pocket. Easy clean nylon construction.

Model **6066**

MSRP	10-49	50-99	100+
<b>\$4.95</b>	<b>\$4.20</b>	<b>\$3.95</b>	<b>\$3.70</b>

4

### 4 Standard Nursing Pack

Our Nursing Packs combine our Nurse Pocket with our other popular nursing products! Includes a pen, paper tape and 7" nurse scissors - choose your scissor color from any 7" nurse scissors!

Model **6327**

MSRP	10-49	50-99	100+
<b>\$9.95</b>	<b>\$8.45</b>	<b>\$7.96</b>	<b>\$7.46</b>

## 1 Stethoscope Watch and Timer

Use this timer and watch to keep track of all your medication administrations, intervals, and patient rechecks. Ideal for all healthcare professionals.

- Locks to rubber stethoscope tubing
- Date and time display
- Alarm clock & timer functions

Model **6067**

MSRP	10-49	50-99	100+
<b>\$3.99</b>	<b>\$3.39</b>	<b>\$3.19</b>	<b>\$3.00</b>

## 2 Stethoscope ID Tags

These high-quality stethoscope ID tags are both durable and attractive; write your name on either side. Both tag types clip on to your stethoscope tubing.

Black Model **6064-BLK**

Blue Model **6064-BLU**

Purple Model **6064-PUR**

MSRP	10-49	50-99	100+
<b>\$1.75</b>	<b>\$1.49</b>	<b>\$1.40</b>	<b>\$1.32</b>

Red Heart Model **6065**

<b>\$1.95</b>	<b>\$1.65</b>	<b>\$1.55</b>	<b>\$1.45</b>
---------------	---------------	---------------	---------------

## 3 Stethoscope Bridge ID Tag

Snaps over the bridge of your stethoscope, with a nameplate to personalize it.

Model **6069**

MSRP	10-49	50-99	100+
<b>\$2.75</b>	<b>\$1.49</b>	<b>\$1.40</b>	<b>\$1.32</b>

## 4 Stethoscope Light

Add this light to most standard stethoscopes by simply snapping it around the head or bell to provide a bright white light for all your clinical situations. A simple squeeze of the side buttons will turn on its bright white light to illuminate the area you're looking at.

Blue **6087-BLU**

Red **6087-RED**

MSRP	10-49	50-99	100+
<b>\$7.99</b>	<b>\$6.80</b>	<b>\$6.40</b>	<b>\$6.00</b>

## 5 Stethoscope Hip Clip

Carry your most important patient care accessory with this stethoscope holder. Sturdy clip allows it to clip to your scrubs, belt or slacks with the ability to slide your stethoscope bell into the holder to carry on your side.

Blue **6088-BLU**

White **6088-WHI**

MSRP	10-49	50-99	100+
<b>\$3.49</b>	<b>\$2.97</b>	<b>\$2.80</b>	<b>\$2.62</b>

*Stethoscope not included with any products on this page*

1

## 1 Cell Phone Display & Stylus

Desktop display for your cell phone with a non-slip grip and folding easel design for easy storage and carrying. Made from high-impact polystyrene plastic to hold smartphones or portable media devices. Comes with a soft felt screen cleaner and touch stylus.

Model **6077**

MSRP	10-49	50-99	100+
<b>\$3.50</b>	<b>\$2.98</b>	<b>\$2.80</b>	<b>\$2.62</b>

2

## 2 Highlighter Pen

Retractable pen with highlighter for underlining, taking notes, or simply writing. Made from lightweight plastic with a soft rubber fingertip grip.

Model **6333**

MSRP	10-49	50-99	100+
<b>\$3.99</b>	<b>\$3.39</b>	<b>\$3.19</b>	<b>\$2.99</b>

3  

## 3 Metallic Penlights

The focused beam of light provided by this lightweight and pocket-size aluminum penlight offers the most robust illumination possible. Includes replaceable AA batteries. Available with an optional ruler or pupil gauge engraving.

### Standard Models:

Horizontal Model **8809-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 2 Rapid ID - EKG and RASS

Double-sided rapid ID reference with EKG interpretation on the QRS complex and Richmond Agitation-Sedation Scale.

Vertical Model **8808**  
Horizontal Model **8808-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 3 Rapid ID - Pain and Conversions

Double-sided rapid ID reference includes a bilingual pain scale as well as a comprehensive list of metric and imperial unit conversions.

Vertical Model **8807**  
Horizontal Model **8807-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 4 Rapid ID - Pediatric Guidelines

Double-sided rapid ID card to reference infant/pediatric vital signs based on age. Flip the card over to see endotracheal tube guidelines from neonates to 6 years of age with recommended blade sizes.

Vertical Model **8806**  
Horizontal Model **8806-H**

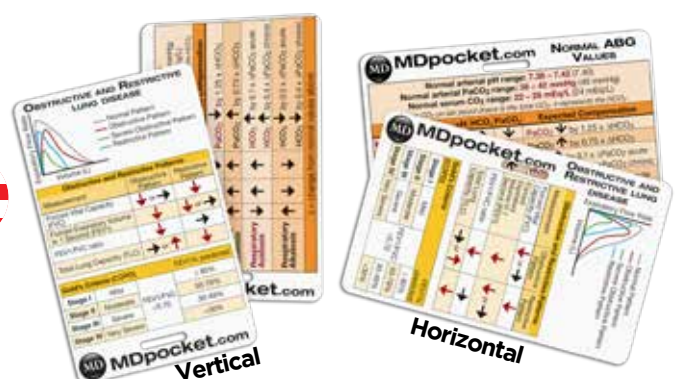

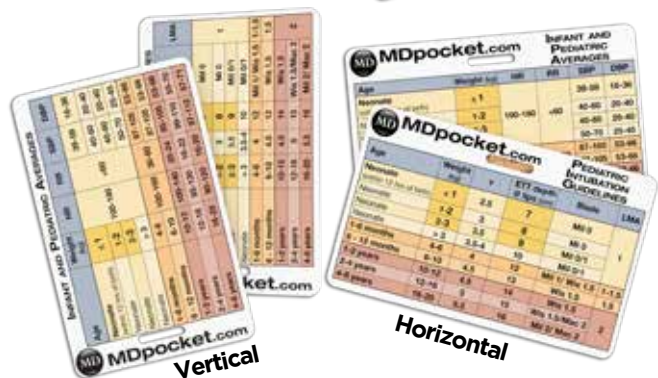

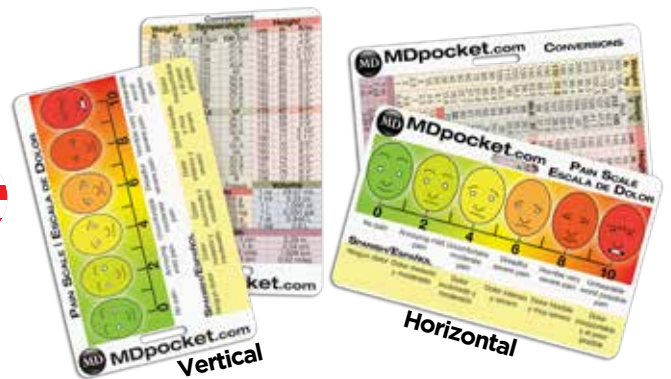

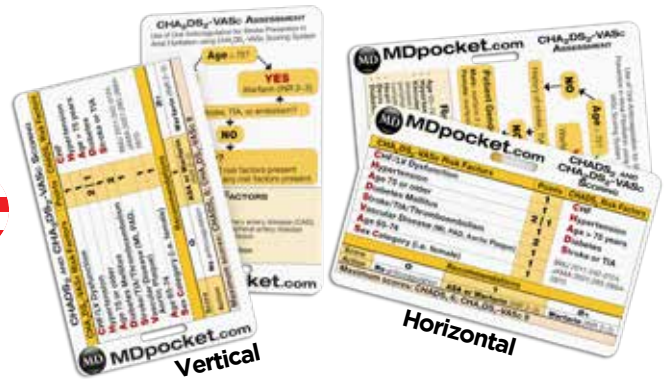

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

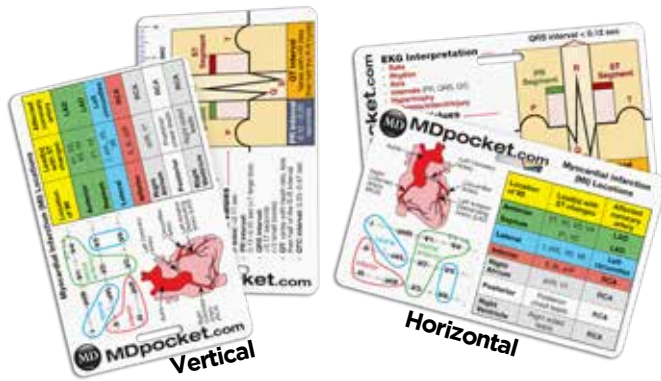

## 5 Rapid ID - ABG & Obstructive/Restrictive Lung Disease

Double-sided rapid ID referencing guidelines for obstructive and restrictive lung disease as well as reading ABG values.

Vertical Model **8812**  
Horizontal Model **8812-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

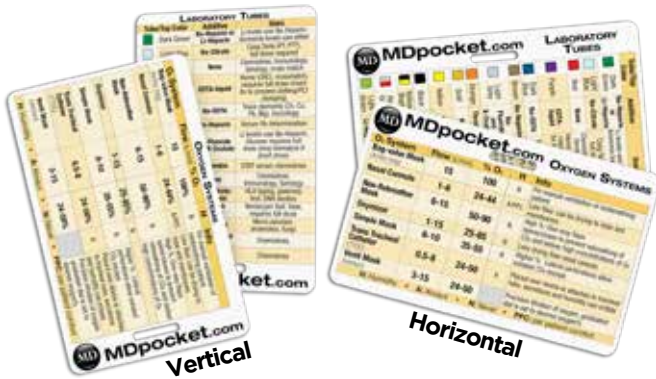

## 1 Rapid ID - EKG & Myocardial Infarction

Double-sided rapid ID card medical reference on Myocardial Infarction locations and EKG interpretations.

Vertical Model **8819**  
Horizontal Model **8819-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

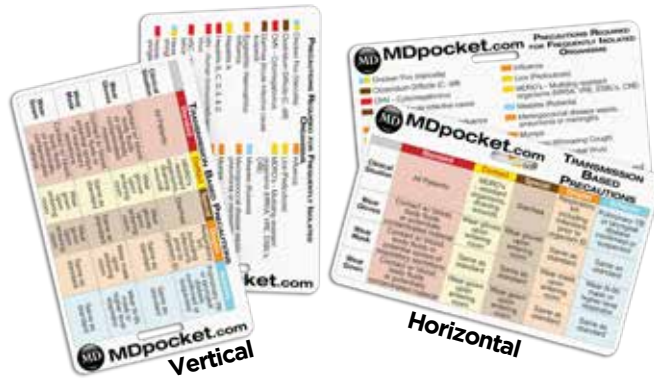

## 2 Rapid ID - Tubes and Oxygen Systems

Double-sided rapid ID medical reference on blood draw tubes and oxygen systems.

Vertical Model **8802**  
Horizontal Model **8802-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 3 Rapid ID - Healthcare Provider Precautions

Double-sided rapid ID reference for healthcare provider glove, gown, and mask precautions.

Vertical Model **8803**  
Horizontal Model **8803-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 4 Rapid ID - Labs

Double-sided rapid ID card to reference all basic lab values.

- Basic metabolic panel
- Liver function tests
- Complete blood count

Vertical Model **8804**  
Horizontal Model **8804-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 5 Rapid ID - RASS & Oxygen Systems

Double-sided rapid ID referencing the Richmond Agitation-Sedation Scale (RASS) as well as a quick reference on oxygen flow rates, humidification needs and oxygen percentages to use with different types of systems.

Vertical Model **8817**  
Horizontal Model **8817-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 1 Rapid ID - Body Planes & Sepsis

Double-sided rapid ID referencing all body planes with SIRS and Sepsis definitions.

Vertical Model **8805**  
Horizontal Model **8805-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 2 Rapid ID - Lung Volumes & Obstructive/Restrictive Lung Disease

Double-sided rapid ID referencing guidelines for obstructive and restrictive lung disease, as well as a lung volume diagram.

Vertical Model **8814**  
Horizontal Model **8814-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 3 Rapid ID - Spirometry & Lung Volumes

Double-sided rapid ID referencing spirometry flow loops in obstructive and restrictive lung disease, as well as a lung volume diagram.

Vertical Model **8816**  
Horizontal Model **8816-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 4 Rapid ID - ABG & Lung Volumes

Double-sided rapid ID referencing ABG values, as well as a lung volume diagram.

Vertical Model **8813**  
Horizontal Model **8813-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 5 Rapid ID - Spirometry & Obstructive/Restrictive Lung Disease

Double-sided rapid ID referencing spirometry flow loops in obstructive and restrictive lung disease, as well as guidelines for obstructive and restrictive lung disease.

Vertical Model **8815**  
Horizontal Model **8815-H**

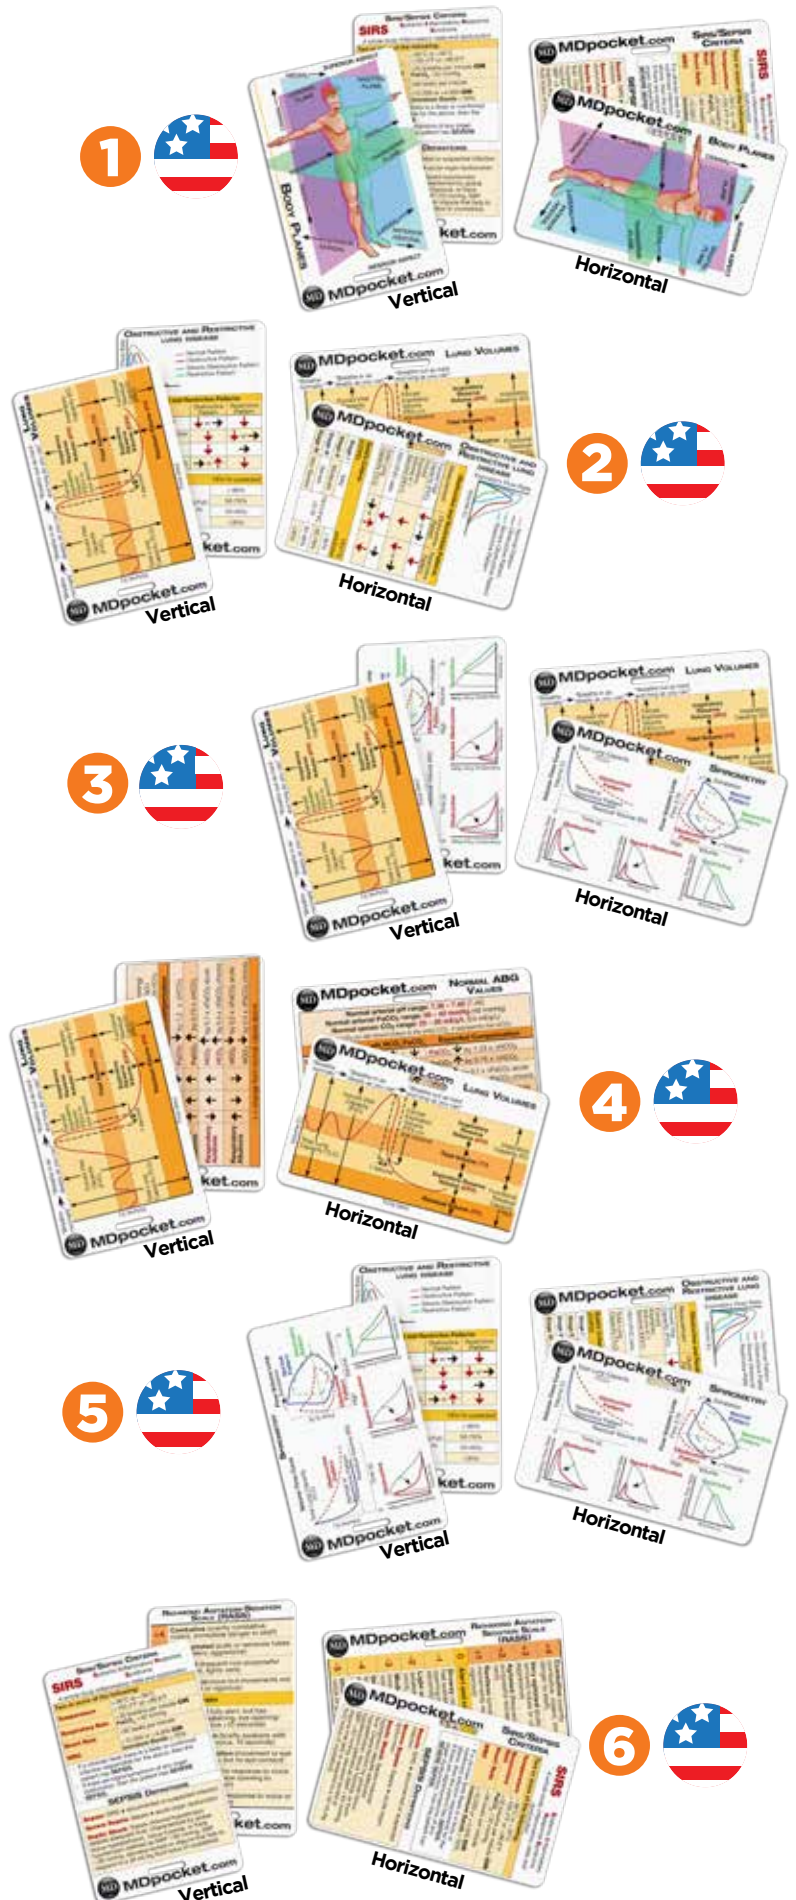

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

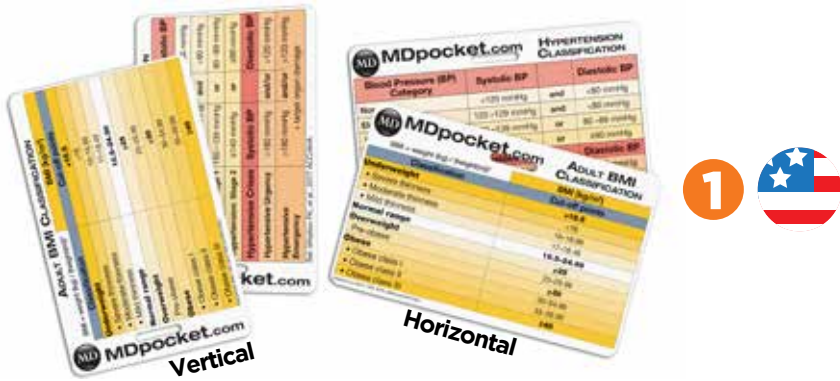

## 6 Rapid ID - RASS & Sepsis

Double-sided rapid ID referencing RASS interpretation with SIRS and Sepsis definitions.

Vertical Model **8821**  
Horizontal Model **8821-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

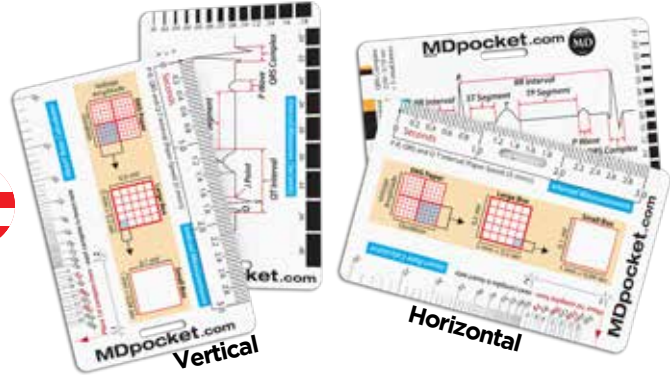

## 1 Rapid ID - Hypertension & Adult BMI

Double-sided rapid ID card medical reference for Hypertension classification and Adult BMI classification to help with screening at risk individuals into at risk groups for heart disease, diabetes, and cancer.

Vertical Model **8823**  
Horizontal Model **8823-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

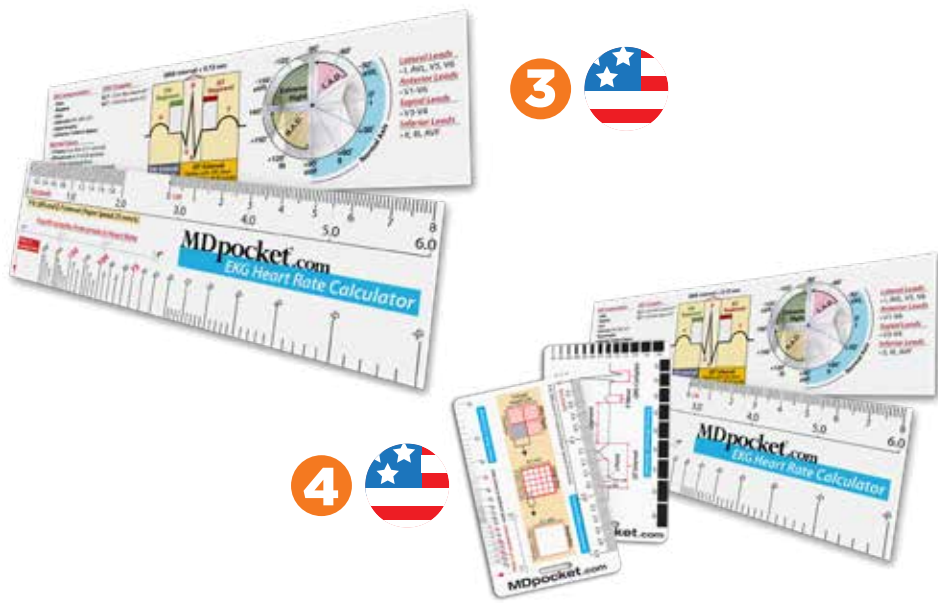

## 2 Rapid ID - EKG Intervals & Measures

Double-sided rapid ID card medical reference for EKG interpretations to help with measuring EKG intervals, heart rates and QRS complex segments.

Vertical Model **8820**  
Horizontal Model **8820-H**

MSRP	10-49	50-99	100+
<b>\$3.39</b>	<b>\$2.89</b>	<b>\$2.72</b>	<b>\$2.55</b>

## 3 EKG Pocket Ruler

Laminated ruler simplifies EKG reading and interpretation and features:

- EKG-specific calculators for heart rate as well as PR, QRS, and QT intervals
- EKG axis determination diagram
- Normal EKG values for P wave, PR interval, QRS duration, QT interval, QTC interval

Model **6057**

MSRP	10-49	50-99	100+
<b>\$4.95</b>	<b>\$4.20</b>	<b>\$3.95</b>	<b>\$3.70</b>

## 4 Rapid ID - EKG & Ruler Combo Pack

This combo pack includes the EKG Pocket Ruler and EKG Intervals and Measures Rapid ID.

Model **4305**

MSRP	10-49	50-99	100+
<b>\$6.49</b>	<b>\$5.52</b>	<b>\$5.19</b>	<b>\$4.87</b>

## 5 Rapid ID - Medical Pack

Cards in Medical Pack:

- ABG & Sepsis
- EKG & Myocardial Infarction
- Lung Volumes & Spirometry
- CHADS

Vertical Model **8822**  
Horizontal Model **8822-H**

MSRP	10-49	50-99	100+
<b>\$11.99</b>	<b>\$10.20</b>	<b>\$9.60</b>	<b>\$9.00</b>

# 1 Cyanotic Congenital Heart Disease Wheel

Includes commonly seen cyanotic congenital heart diseases and allows you to apply the American Academy of Pediatrics recommended Pulse Oximetry Test and the Oxygen Challenge Test in your assessments. This wheel shows all the necessary steps to evaluate CCHD clinical features including chest X-rays and EKGs in making a diagnosis prior to Cardiology consultation and Echocardiography.

Model 4212

MSRP	10-49	50-99	100+
\$6.95	\$5.90	\$5.55	\$5.20

# 2 Neonatal Pulse Oximetry Wheel

This wheel is an educational tool to help assess for Critical Congenital Heart Disease (CCHD) in neonates. Pulse Oximetry has been recommended by the American Academy of Pediatrics and the American Heart Association to identify hypoxemia that might not otherwise produce visible cyanosis, especially among darkly pigmented newborns.

Model 4211

MSRP	10-49	50-99	100+
\$5.95	\$5.05	\$4.75	\$4.45

# 3 Neonatal Hypoglycemia Wheel

This wheel provides a practical guide and algorithm for screening and subsequent management of neonatal hypoglycemia with a goal target glucose screen  $\geq 45$  mg/dL prior to routine feedings.

Model 4213

MSRP	10-49	50-99	100+
\$6.95	\$5.90	\$5.55	\$5.20

# 4 Neonatal Bili Wheel

Use this wheel to guide therapy for neonates with hyperbilirubinemia. There are 6 circles for providers to categorize neonates of a certain gestational age in the treatment of hyperbilirubinemia including those infants who have hemolytic disease of the newborn such as RH disease, ABO or other blood group incompatibility with coombs positive status, presence of sepsis, hypoxemia, acidosis, or low albumin level of  $\leq 2.5$ mg/dL.

Model 4214

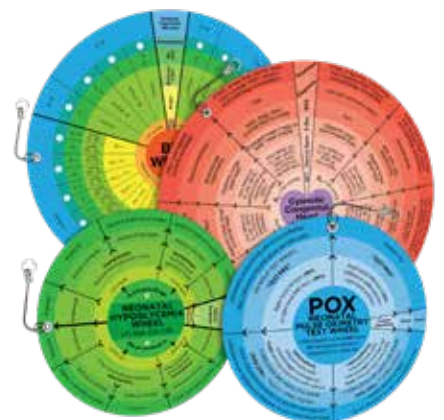

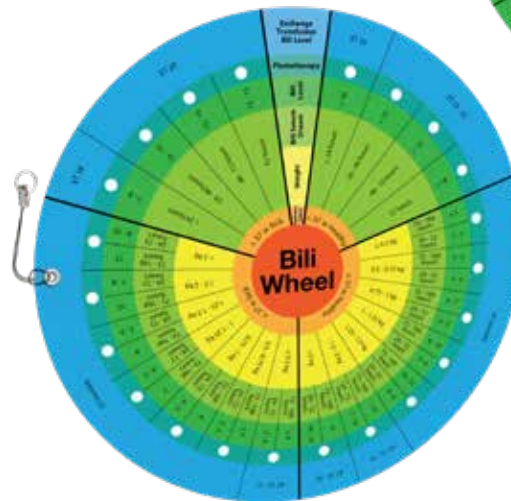

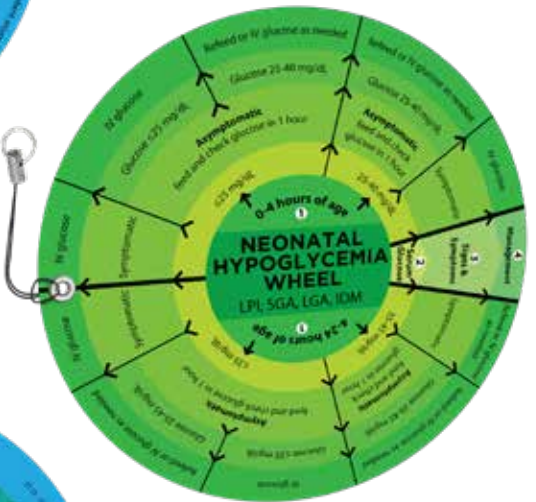

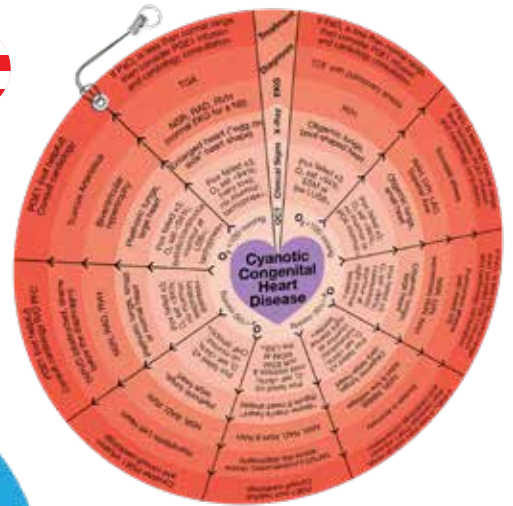

MSRP	10-49	50-99	100+
\$6.95	\$5.90	\$5.55	\$5.20

# 5 Neonatal Wheel Combo Pack

A wheel combo pack with all four neonatal wheels.

Model 4301

MSRP	10-49	50-99	100+
\$15.99	\$13.59	\$12.79	\$11.99

## 1 Pregnancy Wheel

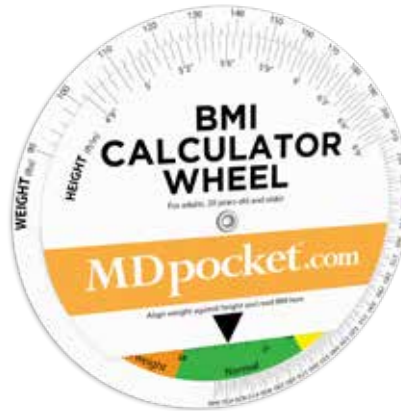

Get all the important pregnancy dates in a small pocket wheel that features:

- Dates to help determine the estimated due date using the first day of the last menstrual period or the probable date of conception
- Fetus crown rump length measurements
- Biparietal diameter (BPD) measurements

Model 4203

Metric Model 4219

MSRP	10-49	50-99	100+
\$5.99	\$5.10	\$4.80	\$4.50

## 2 BMI Calculator Wheel

Calculate the body mass index (BMI) of patients with this BMI wheel calculator that will fit in your pocket.

Model 4210

Metric Model 4218

MSRP	10-49	50-99	100+
\$4.95	\$4.20	\$3.95	\$3.70

## 3 Pediatric BMI Calculator Wheel

Calculate the body mass index (BMI) of pediatric patients with this BMI calculator wheel that will fit in your pocket. Measure the height and weight of patients under 90 lbs. and determine the corresponding BMI-for-age percentile (%ile) that they fit in to.

Model 4206

MSRP	10-49	50-99	100+
\$4.95	\$4.20	\$3.95	\$3.70

## 4 Chorioamnionitis Wheel

This pocket wheel is used to help diagnose patients with Intrauterine Inflammation or Infection or both, abbreviated as "Triple I".

Model 4209

MSRP	10-49	50-99	100+
\$4.95	\$4.20	\$3.95	\$3.70

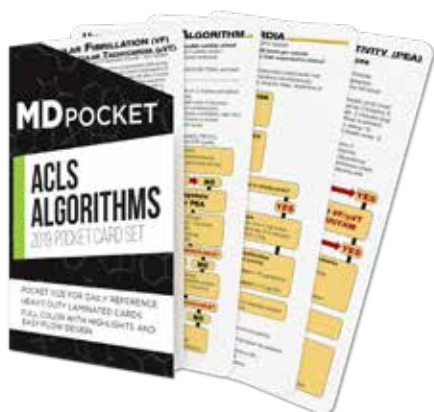

## 5 ACLS Card Set

ACLS pocket reference cards are ideal for quick reviews of the diagnosis and treatment of the latest 5 major ACLS algorithms:

- Universal ACLS Algorithm
- Pulseless Electrical Activity
- Bradycardia
- Ventricular Tachycardia and Fibrillation
- Unstable Tachycardia
- Asystole
- ACLS medications

Model 4201

MSRP	10-49	50-99	100+
\$12.99	\$11.05	\$10.40	\$9.75

All of our cards and card packs are available with optional hole punching and card rings for an additional \$1.25

## 1 PALS Card Set

Laminated pocket card set with latest acute care pediatric algorithms. This 3 card set has easy-flow algorithms to guide you through the most daily used pediatric life support measures. Included within the set of cards: Universal PALS Algorithm, Pediatric Bradycardia Algorithm, Pediatric Tachycardia Algorithm, and more!

Model 4205

MSRP	10-49	50-99	100+
\$8.95	\$7.60	\$7.16	\$6.71

## 2 Adult Basic Life Support Card (BLS)

Laminated pocket card provides the latest Basic Life Support (BLS) guidelines for Adults. The front of this card provides the BLS algorithm for unresponsive victims. Flip the card over to review all the CPR components for providers, such as compression ratios/depths, hand placement, and 1 or 2 rescuer guidelines for infants, children, adolescents, and adults.

Model 4215

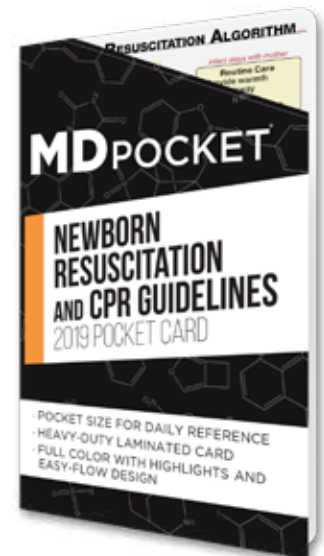

MSRP	10-49	50-99	100+
\$6.95	\$5.90	\$5.55	\$5.20

## 3 Newborn Resuscitation Algorithm Card

Laminated pocket card provides the latest Newborn Resuscitation Algorithm and Cardiopulmonary Resuscitation (CPR) guidelines. The front of this card features the Newborn Resuscitation Algorithm and on the back are all the CPR components for providers (compression ratios/depths, hand placement, and 1 or 2 rescuer guidelines for infants, children, adolescents, and adults).

## 2 Menu Board With Bands

These boards are great for holding menus, listed items, sale promotions or other documents and are made from sturdy, lightweight Medium-Density Fiberboard (MDF) or High-Density Fiberboard (HDF) construction. Each board will hold 8.5 x 11 inch letter size paper flat, and with our secure bands (top and bottom) provide a simple but eloquent way to display or promote your listed menu or items. Change your menu at a moment's notice while maintaining a professional, stylish look. The included bands (clear or black) will also prevent your tables from being scratched. You can even get this clipboard engraved with your company name or logo to give you a one-of-a-kind product; please contact us for more information about customization.

### 3 WhiteCoat Clipboards

Patented folding WhiteCoat Clipboards with glossy labels to reference the most daily used medical information. Carry patient notes, medication lists, and nursing assessments without worry of losing your data. Our best-selling clipboards for all healthcare professionals including nurses, pharmacists, pediatric specialists, and general practitioners.

**WhiteCoat Clipboards feature:**

- A full size design that folds to 1/2" thickness
- Lightweight aluminum construction
- The ability to hold 15-30 pieces of paper without creasing

*See available colors and models on the next pages!*

# Nursing WhiteCoat Clipboards

Standard Version

Vertical Version

The Standard Version clipboard features a comprehensive medical reference guide. Key sections include:

- SEPSIS/ SIRS:** Definitions and criteria for Systemic Inflammatory Response Syndrome.
- Temperature:** Conversion charts for Fahrenheit and Celsius.
- Respiratory Rate:** Normal ranges and clinical significance.
- Heart Rate:** Normal ranges and clinical significance.
- WBC:** Normal ranges and clinical significance.
- PAIN SCALE:** A visual scale from 1 (No Pain) to 5 (Worst Pain).
- QRS COMPLEX:** Detailed ECG interpretation guide including PR interval, QRS interval, and ST segment changes.
- INJECTION SITES:** Anatomical diagrams for various injection sites (Ventricular, Dorsogluteal, etc.) with labels A-D.
- Pupil Sizes:** Visual scale from 2 mm to 12 mm.
- Normal ABG Values:** Reference ranges for arterial blood gases.
- Causes IV Users:** Common causes of IV complications.
- Normal Lab Values:** Reference ranges for various laboratory tests.

The Vertical Version clipboard provides a compact, vertical reference guide with the same essential medical information as the standard version, including Sepsis/SIRS criteria, vital signs, and ECG interpretation.

iPad Mini Version

The iPad Mini Version offers a digital reference guide with the same medical content as the physical clipboards, optimized for the iPad Mini screen.

Available Color Models:

This clipboard is now available in a Metric Units edition!

Make your clipboard a quick medical reference guide with detailed day-to-day information specifically designed for nurses, certified nursing assistants, and all healthcare professionals caring for patients.

**Features:**

- Pain scale
- Normal lab values
- Acid-base assessment
- Pupil size
- EKG interpretation with ST changes
- Location of injection sites
- Sepsis criteria and definitions
- Conversions of weight, height, temperature

# Respiratory WhiteCoat Clipboards

### WhiteCoat Clipboards

O <sub>2</sub> System	Flow (L/min)	% O <sub>2</sub> (FIO <sub>2</sub> )	H	Info
Bag-valve Mask (Ambu Bag)	15	100% with reservoir	N	For manual ventilation of nonbreathing patient
Nasal Cannula	1-6	24-44	A/PPC	Low flow: can be drying to nose and membranes
Non-Rebreather Mask	6-15	50-90	N	High %: one-way flap opens/closes to prevent rebreathing of CO <sub>2</sub> and deliver high concentrations of O <sub>2</sub>
Oxygenizer	1-15	25-55	N	Less drying than nasal cannulas
Simple Mask	6-10	35-55	N	Higher %: lateral perforations allow exhaled CO <sub>2</sub> escape
Trans Tracheal Catheter (TTCC)	0.5-8	24-50	A	Placed over stoma or attaches to tracheal tubes, secretions and humidity can irritate
Vent Mask (Venturi)	3-15	24-50	S	Precision titration of oxygen, graduated dial is set to desired oxygen %

H: Humidity • A: Always • N: Never • PPC: Per Patient Comfort • S: Separately

**Five Rules for Oxygen Systems**

- No humidity (bubblers) with masks except nasal masks
- Nasal cannulas: 6 L/min at the most
- Oxygenizer: 15 L/min at the most
- Nasal cannulas require humidity per patient comfort
- TTCC must always have humidity

NORMAL ABG VALUES					
Normal arterial pH range: 7.38 - 7.42 (7.40)					
Normal arterial PaCO <sub>2</sub> range: 38 - 42 mmHg (40 mmHg)					
Normal serum CO <sub>2</sub> range: 22 - 26 mEq/L (24 mEq/L)					
serum CO <sub>2</sub> on lab draws is the total CO <sub>2</sub> , it represents the HCO <sub>3</sub>					
	pH	HCO <sub>3</sub>	PaCO <sub>2</sub>	Problem	Expected Compensation
Metabolic Acidosis	↓	↓	↓	loss of HCO <sub>3</sub>	PaCO <sub>2</sub> ↓ by 1.25 x ΔHCO <sub>3</sub>
Metabolic Alkalosis	↑	↑	↑	gain of HCO <sub>3</sub>	PaCO <sub>2</sub> ↑ by 0.75 x ΔHCO <sub>3</sub>
Respiratory Acidosis	↓	↑	↑	hypoventilation	HCO <sub>3</sub> ↑ by 0.1 x ΔPaCO <sub>2</sub> acute HCO <sub>3</sub> ↑ by 0.4 x ΔPaCO <sub>2</sub> chronic
Respiratory Alkalosis	↑	↓	↓	hyperventilation	HCO <sub>3</sub> ↓ by 0.2 x ΔPaCO <sub>2</sub> acute HCO <sub>3</sub> ↓ by 0.4 x ΔPaCO <sub>2</sub> chronic

Δ = change from normal values above

### SPIROMETRY

"Breathe normally" "Breathe in as deeply as you can" "Breathe out as hard and as long as you can"

LUNG VOLUMES AND CAPACITIES		NORMAL SPIROMETRY	
ERV	1.2 L	FRC=RV+ERV	2.3 L
RV	1.2 L	TLC=RV+TV+ERV	5.8 L
IRV	3 L	FVC	4.8 L
TV	0.5 L	IC=TV+IRV	3.5 L

### Respiratory

#### PATTERNS OF FLOW-VOLUME CURVES SHOWING VENTILATORY ABNORMALITIES

Measurement	Obstructive Pattern	Restrictive Pattern
Forced Vital Capacity (FVC)	Decreased or Normal	Decreased
Forced Expiratory Volume in 1 Second (FEV <sub>1</sub> )	Decreased	Decreased or Normal
FEV <sub>1</sub> /FVC ratio	Decreased	Normal
Total Lung Capacity (TLC)	Normal or Increased	Decreased

#### CLASSIFICATION OF SEVERITY OF AIRFLOW LIMITATION IN COPD (based on post-bronchodilator FEV<sub>1</sub>)

Stage I	Mild COPD	FEV <sub>1</sub> >80% predicted
Stage II	Moderate COPD	FEV <sub>1</sub> 50-79% predicted
Stage III	Severe COPD	FEV <sub>1</sub> 30-49% predicted
Stage IV	Very Severe COPD	FEV <sub>1</sub> <30% predicted

#### WEANING PROTOCOL FOR INTUBATED PATIENTS

All patients receiving mechanical ventilation are assessed by using Screen 1 every day

**Screen 1**

- Hemodynamics stable?
- Off vasopressors?
- PaO<sub>2</sub>/FIO<sub>2</sub> ratio >150? (if ABGs not available: SaO<sub>2</sub> >95% on FIO<sub>2</sub> of 0.50 or less)
- PEEP set at 8 cmH<sub>2</sub>O or less?
- RASS of -2 or higher?

**YES TO ALL** → If NO to any question, STOP! Otherwise, ALWAYS proceed to Screen 2

**Screen 2**

**Rapid Shallow Breathing Index (RSBI)**

A 1 minute test: through ventilator with "flow trigger" mode rate set to 0, PSV set to 0, PEEP allowed up to 5 cmH<sub>2</sub>O. Measure after 1 minute respiratory rate and tidal volume.

RSBI calculation = f/Vt respiratory rate (f), tidal volume (Vt)

**RSBI ≤ 105**

- RSBI ≤ 105 predicts a successful SBT and ventilator weaning
- RSBI > 105 predicts a higher probability of failing a weaning trial
- 105 remains the most widely accepted cutoff value for intubated patients

**Spontaneous Breathing Trial (SBT)**

Spontaneous breathing for 120 minutes through ventilator with "flow trigger" mode rate set to 0, PSV set to 0, PEEP allowed up to 5 cmH<sub>2</sub>O. A 2-hour continuous trial without termination indicates a successful spontaneous breathing trial.

Successful spontaneous breathing trial?  
Yes - discuss with Pulmonary Physician for extubation  
No - restart from Screen 1 after period of rest (usually 24 hours)

**Termination Criteria:**

- Respiratory rate >35/min for 5 minutes or more
- SaO<sub>2</sub> <90%
- Heart rate > 140/min, or sustained increase 20% greater than baseline
- Systolic blood pressure >180 mmHg or <90 mmHg
- Increased anxiety

If spontaneous breathing trial is unsuccessful, restart from Screen 1 after 24 hours rest

Available Color Models:

iPad Mini Version

Carry patient respiratory assessment forms, ventilator logs, medication lists, and all your documentation in a HIPAA secure clipboard.

**Features:**

- Spirometry assessment with COPD criteria
- Rapid Swallow Breathing Index
- Ventilator weaning
- Acid-base assessment
- Oxygen systems and flow rates
- Classification of severity of lung disease

# EMT WhiteCoat Clipboards

**WhiteCoat Clipboards**

**Patient Assessments - OPQRST**

- O** Onset: When did it first start? Events leading up to it?
- P** Provokes: What makes it better or worse?
- Q** Quality: What does it feel like?
- R** Radiations: Does it travel to any other part of the body?
- S** Severity: What is the level of severity (1-10 scale)?
- T** Time: Constant, change, intermittent, occurred before?

**AMS or ALOC Assessments - A-EIOU-TIPS**

- A** Alcohol
- E** Epilepsy
- I** Insulin
- O** Overdose
- U** Underdose
- T** Trauma
- I** Infection
- P** Psychosis
- S** Stroke

**HYPOTENSION DEFINITION BY AGE AND SBP**

Age	Systolic Blood Pressure
Term neonates (0-28 days)	<60 mmHg
Infants (1-2 months)	<70 mmHg
Children <10 years (5 <sup>th</sup> BP percentile)	>70 mmHg + age in years x 2) mmHg
Children >10 years	<90 mmHg

**HEART RATE (RATE/MIN)**

Age	Awake Rate	Sleeping Rate
Newborn <3 months	60-205	60-100
3 months - 2 years	100-190	75-160
2-10 years	60-140	60-90
>10 years	60-100	60-90

**RESPIRATORY RATE (BREATHS/MIN)**

Age	Rate
Infant	30-60
Toddler	24-40
Preschooler	22-34
School-age child	18-30
Adolescent	12-16

**APGAR SCORE**

**A:** Appearance - **P:** Pulse - **G:** Grimace - **A:** Activity - **R:** Respiration

**Signs:** 0, 1, 2

**P:** Color: Blue, pale, Acrocyanosis, Totally pink

**P:** Heart Rate: None, Slow (<100), >100

**G:** Reflex, irritability: None, Grimace, Cough, sneeze

**A:** Muscle tone: Limp, Some flexion, Active motion

**R:** Respiration: None, Slow/irregular, Good, crying

Check APGAR scores at 1 and 5 mins, 10 points max. The infant may require additional assessment if scores are <7 or APGARs decreased at 5 mins.

**SIRS** Systemic Inflammatory Response Syndrome  
A whole-body inflammatory state and dysfunction

Two or more of the following:

- Temperature: >102.4°F or <96.8°F (>38°C or <36°C)
- Respiratory Rate: >20 breaths per minute OR PaCO<sub>2</sub> <32 mmHg
- Heart Rate: >90 beats per minute
- WBC: >12,000 or <4,000 OR Immature Bands >10%

If there's a likely or confirmed infection responsible for the above, then the patient has SEPSIS.

If there are signs/symptoms of any organ dysfunction, then the patient has SEVERE SEPSIS.

**ADULT % BSA**

**TEMPERATURE CONVERSIONS**

37.0°C = 98.6°F	39.9°C = 102.0°F	°F = (°C x 9/5) + 32
37.8°C = 100.0°F	39.0°C = 102.2°F	°C = (°F - 32) x 5/9
38.0°C = 100.4°F	39.4°C = 103.0°F	Febrile Temp:
38.3°C = 101.0°F	40.0°C = 104.0°F	>38°C or 100.4°F

**INFANT % BSA**

**RULE OF NINES** (adults and infants of one year or less)

- Body surface area (BSA)
- % estimated burn area
- 2<sup>nd</sup> and 3<sup>rd</sup> degree burns
- Alternative method: Patient's palm = 1% BSA

**CHILDREN 1 YR OR OLDER**

For each year above one, add 0.5% to each leg and subtract 1% for the head. This formula should be used until the adult rule of nines values are reached. For example, a 5-year old child would be +2% for each leg and -4% for the head.

**GLASGOW COMA SCORE**

A 15-point scale to predict mortality after traumatic head injury.

Score	Eye Opening	Best Motor	Best Verbal
1	None	No response	No response
2	To pain	Extension	Incomprehensible
3	To verbal	Flexion	Inappropriate
4	Spontaneous	Flexion withdrawal	Disoriented
5		Localized to pain	Oriented
6		Obeys commands	Oriented

**COMA SCORE INTERPRETATION:** >13, mild brain injury; 9-12, moderate brain injury; <8, severe brain injury

**PUPIL SIZE**

**QRS Complex**

QRS interval < 0.12 sec

**Normal Values**

- P wave: <0.11 sec
- PR interval: 0.12-0.20 sec (<1 large box)
- QRS interval: <0.12 sec (<3 small boxes)
- QT: varies with HR, <1/2 of the R-R interval
- QTc intervals: 0.33-0.47 sec

**QRS Complex**

PR Segment, R, ST Segment, T

PR Interval (0.12-0.20 seconds)

QT Interval (Varies with HR less than half the R-R cycle)

ST Elevation "Infarction"

Q Wave

ST Depression "Ischemia"

**QRS Axis**

**Lateral Leads:** I, aVL, V5, V6

**Septal leads:** V1-V2

**Anterior leads:** V2-V4

**Inferior leads:** II, III, aVF

**Axis**

Axis	Lead I	Lead aVF
Normal axis	Positive	Positive
Left axis deviation	Positive	Negative
Right axis deviation	Negative	Positive
Extreme right axis deviation	Negative	Negative

**12-LEAD EKG MI PATTERN INTERPRETATIONS**

**Limb Leads**

I "high lateral"	aVR	V1 "anterior septal"	V4 anterior
II "inferior"	aVL high lateral	V2 "anterior septal"	V5 "lateral"
III "inferior"	aVF "inferior"	V3 anterior	V6 "lateral"

**Preordial Leads**

**First-Degree**

**Type I Second-Degree - Wenckebach**

**Type II Second-Degree - Mobitz II**

**Third-Degree - Complete block**

**AV Blocks**

Intermittent dropped QRS

No P waves produce a QRS response

**GLASGOW COMA SCORE**

A 15-point scale to predict mortality after traumatic head injury.

**PUPIL SIZE**

Available Color Models:

# Occupational Therapy WhiteCoat Clipboards

The tablet displays several key occupational therapy assessment tools:

- RANCHO LOS AMIGOS SCALE:** A scale for cognitive functioning with levels from I (No Response) to VIII (Appropriate Response).
- LEVELS OF ASSIST:** A scale from Independent to Dependent, detailing the level of assistance required for a task.
- MANUAL MUSCLE TEST GRADING SCALE:** A scale from 0 (No visible or palpable contraction) to 5 (Normal).
- OT APPROACHES TO INTERVENTION:** A section describing various intervention strategies like health promotion, remediation, and maintenance.
- SPINAL CORD INJURY FUNCTION:** A scale for assessing functional status in spinal cord injury patients.
- BERG BALANCE SCALE:** A scale for assessing gait and balance.
- TINETTI BALANCE TEST:** A scale for assessing static balance.
- GLASGOW COMA SCALE (GCS):** A scale for assessing level of consciousness.
- PAIN SCALE:** A visual scale for assessing pain levels.
- DIAPHRAGMATIC MAP:** A human anatomy diagram showing muscle groups and their innervation.

Includes Interior Label

## Available Color Models:

Make your clipboard a quick medical reference guide with detailed day-to-day information specifically designed for occupational therapists and all healthcare professionals with occupational therapy patients.

### Features:

- Pain scale
- Rancho Los Amigos Scale
- Myotomes
- Manual muscle test grading scale
- CVA effects
- Berg balance scale
- Tinetti balance test
- Glasgow coma scale
- Dermatomes
- Normal range of motion (ROM)
- Spinal cord injury function

## Periodic Table of Elements

WhiteCoat Clipboards.com  
866-490-4621

Our WhiteCoat Clipboard Chemistry Edition is ideal for all laboratory environments to hold your experiments, equations, and notes. With a standard periodic table and standard equations you'll have it all with this folding patented clipboard. This clipboard is built to withstand the harshest laboratory environments with a strong sturdy design and chemical resistant informational labels to protect your investment and documents.

### Features:

- Laminated scientific labels can withstand harsh cleaning chemicals
- Periodic table source: IUPAC, Royal Society of Chemistry 2015
- Standard equations and conversions

# CUSTOMIZE OUR PRODUCTS TO FIT YOUR NEEDS

## MDPOCKET® MEDICAL REFERENCE GUIDES

MDpocket® books can be easily customized for your program. Base your book on one of our existing editions or create your own book from our library of medical information chapters.

- Design your own cover or let us personalize one for you with student names or your program's logo
- Add specific program information such as:
  - Academic calendars
  - Department, staff, student, and resident numbers
  - Guidelines and rotation information

## WHITECOAT CLIPBOARD LABELS

WhiteCoat Clipboards® are customizable as well - add custom information, medical notations or even your logo on your label. We can even create an entirely new label for your specialty with your help. All you need to do is supply us with the information you'd like to use and our design team will format it for your custom label.

## CLIPBOARD CLIPS

Almost all of our clipboards can be upgraded with different clips. We offer many styles of clips as well as colored and decorated versions. Call us to change clips on any order of clipboards for just \$1.50 per clipboard!

### STANDARD CLIP OPTIONS

### VERTICAL & MINI CLIP OPTIONS

## CLIPBOARD ENGRAVING

Personalize our powder coated clipboards by adding an engraving - we can engrave custom text like names or even logos and designs. Our high-quality indelible laser engravings are a great way to tailor clipboards for your needs with names or even logos, call for quotations.

**Call us today at 303-353-1165 to create a fully customized book or clipboard for your school, program, or students!**
